Three Parallax Courses combined into a 4-day intensive hands-on training session:

• Basic Stamp Educator’s Course
• ActivityBot Robot Course
• Propeller Educator Course

Explore electronics and programming with “What’s a Microcontroller?” and “Robotics with the Boe-Bo” – perfect entry-level kits for technology and pre-engineering programs.

Enjoy a week in Portsmouth NH and go away with extensive knowledge, lab kits, and exciting new activities to engage your students.

Tuition is $599 all inclusive.
