Embedding Library Links

Introduction

When sharing a link to one of the Library resources with students, you will need to do two things:

1. Locate or generate the item’s persistent, or stable, address.
2. Use the college’s proxy server address.

Proxy Server Address

When anyone connects to a Library resource from off campus, they are first directed to a proxy server. This server requires you to log in (using your college EazyLogin username and password) and verify that you are faculty, student or staff.

For students to be able to access a link from off campus, you will need to add Great Bay Community College's proxy server address to the beginning of the persistent link.

Once you have acquired a persistent link, add this string before it:

https://ezproxygbcc.ccsnh.edu/login?url=

Example: You have copied a persistent link from Ebsco.

The link you must provide for students is:

Once they click on this link, students on campus will be taken directly to the article. If they are off campus, they will be required to sign in using their EasyLogin (email & Blackboard) username and password.

Finding Persistent Links

Electronic Books (E-books)

Ebrary

Simply copy the URL from your address bar. This is the persistent link to the book. If you need to link to a specific chapter, change the end of the URL to page=x where x is the page on which the desired chapter begins.

EBSCO E-books

From within the Detailed Record for a book, select Permalink on the right hand side.

Credo Reference

At the end of any article, look for the citation box (outlined in grey). The default (APA) citation will include the persistent link.

Benezit Dictionary of Artists

Within an entry, select the Cite button in the top right corner. Copy the persistent link from any citation.

Updated June 2012
Laura Horwood-Benton, Electronic Resources Librarian
ACLS Humanities E-books  Scroll to the bottom of any book’s Title Record, and look for the URL field.

Ovid ebooks  From any page in an Ovid book, look for Email Jumpstart at the top right hand corner of the page. Selecting this option will generate a “jumpstart” (persistent) link for you to use.

STAT!Ref & STAT!Ref RN  At the top of the page, select Link to page (under the Logout button). Click Select All to highlight, then copy the persistent link.

Databases

Ebsco  From within the Detailed Record for an article, select Permalink on the right hand side.

Proquest  Click on the title of an article in the results list. From the document view, scroll down to the bottom of the screen and copy the Document URL.

JSTOR  At the top of any article page, copy the Stable URL.

Science Direct  Within the record for an article, at the top of the Abstract, you will see the term doi followed by an address. Right click on the link, and copy the link address. This is your persistent link.

Other Electronic Resources

MarketResearch.com  Copy the URL in the address bar of your browser.

CQ Researcher  Within a report, select Cite Now! at the top of the page. Select Bluebook. Copy the link included in the citation.

Points of View  When viewing a “Point of View,” the link will be in the menu at the top, labeled Persistent link to this record (Permalink).

Films on Demand  Underneath each video, you will see the Title URL. This is the persistent link.

VAST  When viewing a video, select Embed/Link. A box will pop up with the persistent link.

Naxos Music Library  Within an album, select Show Static URL on the left. This will display a different URL for each song.

AtoZMapsOnline  Copy the URL in your address bar.

Global Road Warrior  Copy the URL in your address bar.

Culturegrams  Copy the URL in your address bar.
