The spa and wellness industry is growing rapidly as people focus more on healthy living. The Spa Management certificate prepares students for career opportunities in a variety of spa facilities including hotels, resorts, cruise ships, day spas, salons, medical spas, and fitness centers. Students will develop skills to supervise day-to-day operations, oversee massage and skin therapists, nutritionists and other health and wellness specialists while ensuring that clients feel pampered in a relaxed atmosphere. This certificate also complements the Massage Therapy Certificate. With just five additional courses, these students can earn a second credential to prepare them for a supervisory or management role in the spa industry.

A career in the Spa and Wellness industry can lead to any of the following positions: spa manager, spa sales representative, spa supervisory or spa owner.

Employment in the Spa and Wellness industry is projected to grow 13.2 percent from 2014 to 2024. For more information regarding outlook and trends, please visit the Bureau of Labor Statistics: www.bls.gov.
