Great Bay Community College offers a 6 month certificate program in Advanced Composites Manufacturing to train composites technicians for aerospace and other industry sectors. This program was designed with input from industry and meets competencies developed by the U.S. Department of Labor for advanced manufacturing.

This project is sponsored in part a $19.97 million grant from the U.S. Department of Labor, Employment & Training Administration TAACCCT Grant #TC-22504-11-60-A-33. The Community College System of NH is an equal opportunity employer, and adaptive equipment is available upon request to persons with disabilities.
